To whom it may concern:

It is with great confidence that I put forward this recommendation of Skyline Commercial, Inc. as a General Contractor for any type of project. Our firm has worked with Skyline on several Bank of America branch buildings throughout central Texas. In my capacity as the Senior Project Manager and Client Manager for countless Bank of America Projects, I am exposed to the performance of a large amount of general contractors per year. Skyline and their staff have proven to be exceptional.

The Bank of America projects present many challenges due to a demanding client, many owner generated changes, and a fixed completion date. Skyline not only met these challenges, but was also able to satisfy the strict reporting requirements of the Bank of America Projects. In addition to facilitating the necessary changes, Skyline continually kept the entire team informed, mitigated impacts to the project budget and schedule, and achieved the highest level of quality.

The cooperation and collaboration I received while working with Skyline was well beyond my expectations. Therefore, without hesitation, I would recommend Skyline for any challenging construction project. I am available to discuss their performance in more detail if needed at 512.560.2006.

Respectfully submitted,

Nisha Chowdhry Ackermann
Client Manager
